Suicide Prevention Network Meeting

Ukiah, November 6, 2013

The Bay Area Suicide & Crisis Intervention Alliance (BASCIA) will host a regional meeting of the State Suicide Prevention Network. Joining us as co-sponsors will be:

- North Bay Suicide Prevention Project
- Mendocino County Behavioral Health Department
- Lake County Behavioral Health Department
- Mendocino County Office of Education
- Circle of Native Minds Wellness Center
- Manzanita Services

This meeting will present current **best practices in suicide prevention**, and feature a unique set of discussion groups to ensure you better understand suicide prevention challenges and sharpen your skills in suicide prevention.

We'll welcome staff and volunteers in schools, workplaces, youth, ethnic and LGBTQ community groups, religious organizations and first responders. In addition, providers in mental health and primary care, the military and VA are invited, as well as mental health and suicide prevention advocates.

The Network will provide you the most recent information for reducing suicide and connecting with resources. And the meeting itself will allow you to network with others active in suicide prevention.

Please join us—a detailed agenda, full list of discussion groups/workshops and registration information is online at www.bascia.org.

November 6, 2013 — 9:00am to 2:30pm

Ukiah Valley Conference Center

200 South School Street

Ukiah, CA 95482

An agenda for the meeting, map to the Center and related materials are on line at www.bascia.org

This regional meeting of the Statewide Suicide Prevention Network is supported by a grant from the California Mental Health Services Authority—CalMHSA. Among the CalMHSA programs are a set of Prevention and Early Intervention Initiatives, including the Suicide Prevention Initiative. The CalMHSA Suicide Prevention Initiative uses a full range of strategies from prevention to early intervention to prevent suicide across all ages and backgrounds. The Statewide Suicide Prevention Network will bring the latest information on suicide prevention to all concerned. It will also communicate to ensure the best information and prevention strategies are available to all who work with individuals who may be suicidal.

WELLNESS • RECOVERY • RESILIENCE
